

Installation Instructions

TeamViewer 14.1 Unattended Installer

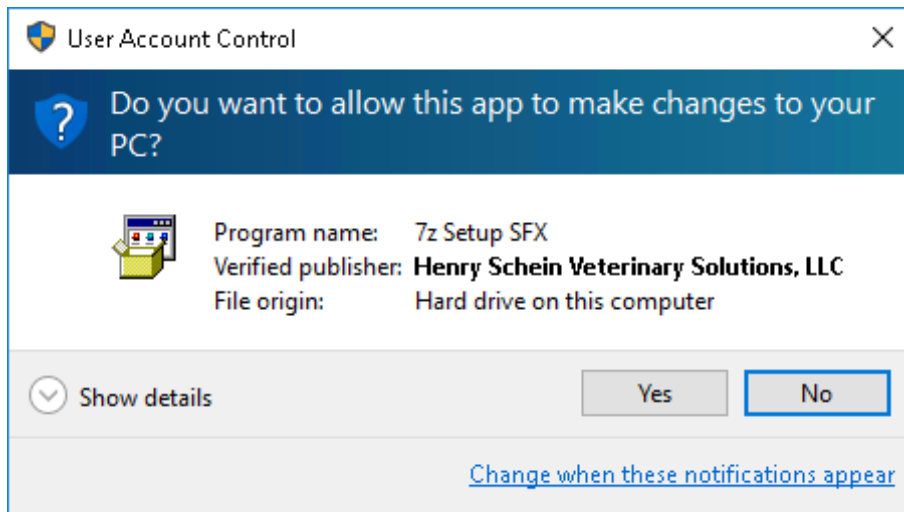

Please note this version will not work on Windows XP.

Download and extract your installer file:

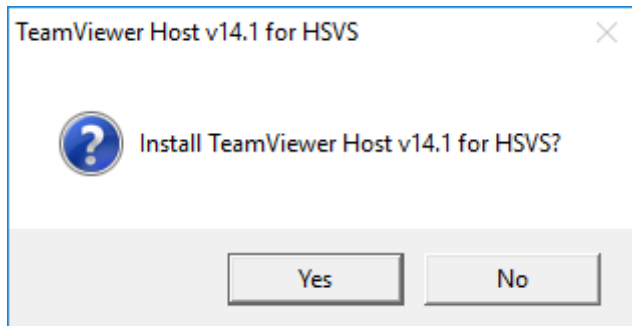

Run the self-extracting installer:

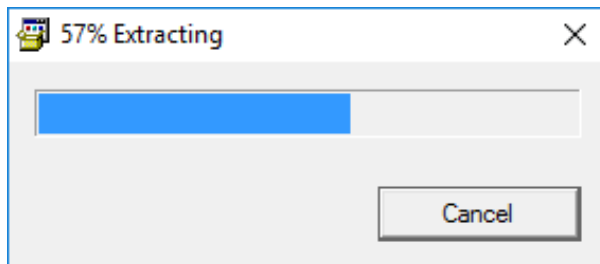

Accept the Windows “UAC” security prompt (if any) by clicking “Yes”:

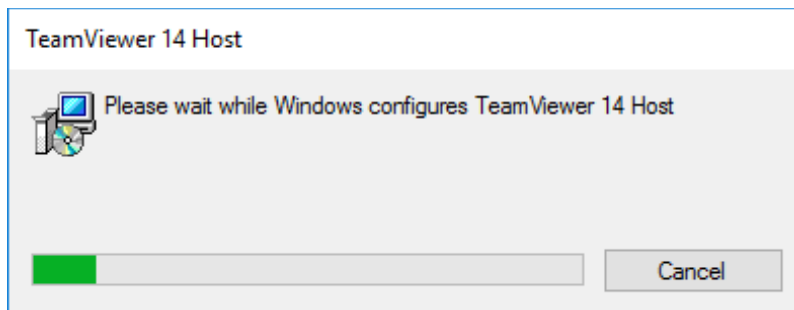

Click “Yes” when prompted to install TeamViewer Host for HSVS:

The archive will extract itself:

The installer will then automatically run with preconfigured settings:

Run the TeamViewer shortcut that will appear on the desktop to verify and record the ID:

HSVS Host

VETERINARY SOLUTIONS

Allow Remote Control

Please tell your HSVS representative
the ID number presented on the
right.
